# Dimension Xpand Plus/RxL Max Integrated Chemistry Systems

## Global Test Menu

The first truly integrated chemistry systems.

### Dimension Xpand Plus Integrated Chemistry System

The Dimension® Xpand® Plus Integrated Chemistry System combines chemistry, STAT, and specialty testing in a single, compact, easy-to-use system.

- 47 assays onboard simultaneously, including ISEs, for streamlined efficiency
- Large test menu with more than 100 assays to meet over 90% of testing needs one system
- Innovative Flex® reagent cartridge technology to eliminate manual sample and reagent pretreatment
- 400 tests/hour

### Dimension RxL Max Integrated Chemistry System

The Dimension® RxL Max® Integrated Chemistry System improves work processes by providing true integration of chemistry and immunoassay testing in a single unit.

- 91 assays onboard simultaneously for minimized sample splitting and reduced turnaround time
- Sample integrity analysis, such as HIL determination, without compromising throughput and productivity
- More results from one tube on one system, without sample splitting
- Up to 800 tests/hour, including 100 basic metabolite panel (BMP) samples/hour

**Answers for life.**

 2. Syva<sup>®</sup> EMIT<sup>®</sup> applications.  
 a. No manual pre-treatment.  
 b. Open channel application.

Siemens Healthcare Diagnostics, a global leader in clinical diagnostics, provides healthcare professionals in hospital, reference, and physician office laboratories and point-of-care settings with the vital information required to accurately diagnose, treat, and monitor patients. Our innovative portfolio of performance-driven solutions and personalized customer care combine to streamline workflow, enhance operational efficiency, and support improved patient outcomes.
